

WHITEWATER

Whitewater kayaking is an exciting sport that involves paddling down rivers and rapids – from simple, gently moving water to demanding, challenging rapids. The sport encompasses a wide variety of disciplines, from creek boating to river running to play boating, and each offers different ways to appreciate the river. With so many approaches to choose from, there is a style of whitewater paddling for everyone. Whitewater paddling is becoming increasingly accessible to a wider population thanks to better equipment and improved designs. Gear made specifically for kids, and in a wider range of adult sizes, has also made whitewater paddling more appealing in recent years. Specified boat and gear designs have grown to meet the needs of each style of whitewater paddling. Creekboats tend to be larger volume with significant rocker, bulbous ends, and a more rounded hull. Playboats are generally shorter and smaller volume, often with a flat hull, slicey ends and sharp chines. River running boats generally utilize a blend of creekboat and playboat characteristics, aiming for a balance between stability and playability. Boats, paddles, PFDs, and helmets are designed distinctly to cater to the specific demands of paddlers on all types of whitewater. Countless accessories also exist to make paddling easier, more comfortable, and more feasible in a variety of weather conditions.

CREEKING

A HIGH-STABILITY WHITEWATER KAYAK DESIGNED SPECIFICALLY FOR RUNNING RIVERS AND STEEP CREEKS.

PRIJON - PURE XL

NEW FOR 2011

PURE XL Production has started! Here we go! Just in time for the Sickline race, the big brother of the PURE is ready for paddling! Our team did a lot of testing, the mold makers worked hard. So the BIG one is ready now. Some technical details: Cockpit outside: 90 x 53 cm Cockpit inside: 82 x 45. Test it now. We start distribution of the boat right now. Just ask your dealer!

Length: 269 cm / 8'10" - width: 69 cm / 2'3" - volume: 330 L / 87 gal - weight: 21.2 kg / 47 lbs - paddler weight range: 85 kg + / 187 lbs + - max. cap.: 130 kg / 287 lbs

Infos: www.prijon.com

FLUID - BIG BANG

NEW FOR 2011

The Big Bang is our evolutionary creekboat/expedition kayak capable of handling class 5 creeks yet at the same time having ample speed for long hauls and enough packing space for extended periods in the wild. It is super forgiving despite the longer length, highly manoeuvrable, punches through big holes, boofs like a much shorter boat, and has the volume and peaked decks to keep it on top at all times. Features include: a sealed off foam bulkhead, a raised knee area which is relatively wide to accommodate big paddlers, copious volume and an extended water line means that heavy paddlers will find the Big Bang a cruise. It is naturally an easy boat to roll. Additional notes: Based on our highly successful Expedition Solo, creating a longer, faster version, but with changes in some crucial features.

Length: 270 cm / 8'10" - width: 65 cm / 25.5" - volume: 310 L / 82 gal - weight: 22.5 kg / 49 lbs - paddler weight range: 70 - 135 kg / 155 - 300 lbs

Infos: www.fluidkayaks.com

ZET - VELOC

NEW FOR 2011

New creek boat from ZET kayaks. This kayak is the next in the ZET production line. Inspired by Raptor, but made with few important changes: it is its smaller cousin. The boat is perfectly balanced and easy to handle. This kayak will help you to tackle those lower water technical creeks but still has enough volume and speed, so you will not get lost in a big volume river or any extreme kayak race. Made by Zelezny technology, designed and developed with the input of the professional ZET team, this boat will help you to get your kayaking skills to next level and take you safely down the river

Length: 245 cm / 8' - width: 65 cm / 2'2" - volume: 280 L / 74 gal - weight: 18 kg / 40 lbs - paddler weight range: 45 - 85 kg / 99 - 187 lbs

Infos: www.zet-kayaks.com

JACKSON - VILLAIN

NEW FOR 2011

Hundreds of hours of research, planning, and testing went into this newest creeker from Jackson Kayak. The Villain is getting rave reviews from serious creekers, male and female alike, impressed with the Villain's floaty feel, ability to punch holes, resurface like a champ, speed and tracking, agility, stability, carve ability, and forgiving nature. There are two versions on the loose, a small/medium known as the "Villain S" (100-180lbs) and a large called simply "the Villain" (160-250lbs). Citizens beware - the Villain also has been proving to be irresistible among paddlers of the fairer sex as well.

Additional notes: Dimensions listed are for the Villain S. All metrics are slightly higher for the Villain.

Length: 249 cm / 8'2" - **width:** 65 cm / 25.5" - **volume:** 300 L / 79.5 gal - **weight:** 20 kg / 45 lbs - **paddler weight range:** 45 - 82 kg / 100 - 180 lbs

Infos: www.jacksonkayak.com/villain

BIG DOG - DROPZONE

The DropZone is a high volume, displacement-hulled creek boat that, as the name suggests is ideal for gnarly descents and tight, steep lines. Also great for those trips further-a-field that often require a degree of gear to be carried: its displacement hull ensures that even when laden, performance is maintained and handling remains predictable. For reassurance in extreme or remote situations this kayak features some added safety features including: six rescue points, twin deck pillars to form a U shaped internal safety cage and 2 sizes of full plate footrest. Voted by the readers of Canoe & Kayak magazine in France as 'Boat of the year 2010'

Length: 254 cm / 8'4" - **width:** 66 cm / 2'2" - **volume:** 278 L / 73 gal - **weight:** 16 kg / 35 lbs

Infos: www.bigdogkayaks.com

WAVE SPORT - HABITAT 74

You want a boat that gets you through whatever the moment throws at you. This is it. The bombproof step pillar, 5 metal z-drag anchors and uber-stable, soft-landing hull are mandatory when you're plunging drops that have never before been run. The Habitat holds any line you put it on - and with the lift of a knee, you'll be carving into eddies with absolute control. You like that, don'tcha? We thought you might. So if you're just getting into creeking or an old pro, we've got the Habitat for you.

Length: 244 cm / 8' - **width:** 64 cm / 25" - **volume:** 280 L / 74 gal - **weight:** 19 kg / 41 lbs - **paddler weight range:** 45 - 91 kg / 100 - 200 lbs

Infos: www.wavesport.com

PYRANHA - BURN

The weapon of choice for many of the World's greatest paddlers, the Burn, just got better! Subtle performance enhancing modifications make the 2010 Burn exactly what you need for having pinpoint accuracy and boofing down rivers like a Pro. Whether you're eddy hopping down remote gorges in distant locations or just want to Burn down your local run, there's more than one reason why this design is established as THE benchmark creek kayak. Available in three sizes small, medium and large

Length: S 238 cm / 7' 9" - M 245 cm / 8' - L 253 cm / 8' 3" - **width:** S 64 cm / 25" M 65 cm / 25½" - L 69 cm / 27" - **volume:** S 238 L / 63 gal - M 279 L / 72.4 gal - L 304 L / 80.3 gal - **weight:** S 17 kg / 37.4 lbs - M 19 kg / 41.8 lbs - L 21 kg / 46 lbs

Infos: www.riotkayaks.com

LIQUID LOGIC - JEFE, CHICO & GRANDE

Jefe (Spanish for "Boss") from designer Johnnie Kern. When asked what the Jefe was designed for, Johnnie smiled and said, "To run the @\$#%!". The most tested creek boat in our line-up, the Jefe can handle anything you throw at it, from huge volume rivers to shallow rocky creeks. "I wanted to get as much speed out of the hull as possible" says Johnnie, "so when you're in an eddy looking over your shoulder at a must make move, you know the boat is going to dig in and jump up to speed." Add that speed to Jefe's stable platform, its super-soft bow and innovative stern edges, (which provide predictability and control), and you have the ultimate creeker. Bulkhead Footrest. Bad Ass Outfit.

Length: 236 cm / 7'9" - **width:** 69 cm / 2'3" - **volume:** 261 L / 69 gal, - **weight:** 19 kg / 42 lbs, Jefe 20 kg / 44 lbs, - **paddler weight range:** 34 - 75 kg / 75 - 165 lbs

Jefe: **Length:** 249 cm / 8'2" - **width:** 69 cm / 2'3" - **volume:** 99 L / 26 gal, - **weight:** 20 kg / 44 lbs - **paddler weight range:** 57 - 93 kg / 126 - 205 lbs,
Grande: **Length:** 259 cm / 8'6" - **width:** 69 cm / 2'3" - **volume:** 340 L / 90 gal - **weight:** 23 kg / 51 lbs - **paddler weight range:** 7 - 132 kg / 170 - 291 lbs

Infos: www.liquidlogickayaks.com

DAGGER - NOMAD 8.5

If records were made to be broken, then the Nomad was made to break them. The world's ultimate creeker has been the kayak of choice for dominating outrageous rivers and descents. With great speed, rock-solid stability, easy rolling, and the ability to turn on a dime, it handles big water or downriver bombing with ease. Built-in safety from 6 attachment points, step-out wall, and rapid resurfacing keeps your focus on the challenges ahead.

Length: 257 cm / 8'5" - **width:** 67 cm / 26.5" - **volume:** 295 L / 78 gal - **weight:** 21 kg / 46 lbs - **paddler weight range:** 68 - 109 kg / 150 - 240 lbs

Infos: www.dagger.com

ZET - RAPTOR

Raptor is a serious addition to the creeking world. This cutting edge new creekboat combines balanced volume, stable hull, great plastic and bombproof outfitting with lots of speed to charge. Raptor was developed by competitors Honza Lasko and Viktor Legat and made by the Zelezny technology, which makes it one of the stiffest and most durable kayaks out there with unbelievable 4 years warranty. This kayak will enhance the abilities of the pros as well as help the beginners to tackle their first harder whitewater.

Length: 255 cm / 8'4" - **width:** 68 cm / 2'2" - **volume:** 310 L / 82 gal - **weight:** 18 kg / 40 lbs - **paddler weight range:** 75 - 110 kg / 165 - 242.5 lbs

Infos: www.zet-kayaks.com

EXO - DEMON

High-performance and compact dimensions, conceived for steep torrents and large cascades. Stable and fast thanks to the low baricentre and the gliding bottom. Careful study of water lines and weight distribution guarantee safety and easy execution of the eskimo roll. Features: four handles, two "points" for anchoring spring clips, an ergonomic seat, adjustable puncture-proof footrests, unbreakable polyethylene ribs, and a bailing cap.

Length: 241 cm - **width:** 66 cm - **weight:** 19 kg - **volume:** 280 L - **paddler weight range:** 50-85 kg

Infos: www.exokayak.com

RIOT - MAGNUM 80

Creeking is one of those things where science and unknown can't be separated completely. At least it seems like that. Here is the science: the Magnum. It sums up all the knowledge the Riot paddlers have acquired about creeking since the beginning. How to make it buoyant yet maneuverable, the correct shape to punch well through features without losing too much momentum.

Length: 254 cm / 8'4" - width: 67 cm / 26.5" - volume: 303 L / 80 gal - weight: 20.5kg / 45 lbs

Infos: www.riotkayaks.com

ROBSON - CHARGER

This boat seats Frankenstein with a shoe size 13, a height of 6'5" and an over all weight of 200lbs, comfortably. The rest is business as usual - a planing hull with a disc, an adjustable bulkhead and new Pro Logic seat system for maximum control, not matter how steep it gets or how full the creek actually is.

Length: 267 cm / 8'10" - width: 67 cm / 26" - volume: 340 L / 90 gal - weight: 21 kg / 46 lbs - paddler weight range: 80 - 130 kg / 175 - 286 lbs

Infos: www.robson.de

XT 300 EXO

www.exokayak.com

RIVER RUNNING

OFFERING THE STABILITY OF A CREEKBOAT WITHOUT LOSING THE ABILITY TO STOP AND PLAY A BIT ALONG THE WAY. THESE MAKE GREAT BEGINNERS BOATS TOO.

JACKSON - HERO

NEW FOR 2011

The newest generation of this proven whitewater river runner is even more stable, easier to maneuver, easier to roll and more comfortable. Think sporty too - the new Hero is short and stable, yet super fast for the length. It is as wide and flat as possible, while still allowing the paddler full edge control both on the water and on rocks. The refined drop chines allow for snappy eddy turns and incredibly easy to control ferries and surfing. The new rocker profile turns boofing, which was once its kryptonite into one of the easiest boofing boats in history!

Length: 7'4" - width: 26" - volume: 74 gal - weight: 39 lbs - paddler weight range: 115 - 190 lbs

Infos: www.jacksonkayak.com/hero-series

FLUID - DETOX

NEW FOR 2011

For kayakers who want a creekboat with a playboat hull, to run rivers and play on the way down. The hull incorporates a variation of the Nemesis rail system with super forgiving sidewalls and generous kick rocker to create an exciting but very stable ride. It boofs, surfs green waves, catches must-make eddies with ease, runs creeks like a creekboat, runs big volume runs like a playboat. There is ample volume, combined with the peaked decks, ensuring controllable surfacing when running drops. The deck profile and hull width make it super easy to roll. Spacious enough to take overnight gear, and the full bulkhead will protect your ankles in a piton.

Additional notes: The Detox fills the gap between the Spice and the Solo series in the Fluid line-up.

Length: L=245 cm / 8' - M=230 cm / 7'6" - S=215 cm / 7'1" - width: L=66 cm / 26" - M=64 cm / 25.25" - S=62 cm / 24.5" - volume: L=270 L / 71 gal - M=250 L / 66 gal - S=235 L / 52 gal - weight: L=20 kg / 44 lbs - M=19 kg / 42 lbs - S=18 kg / 39 lbs - paddler weight range: L=70 - 115 kg / 180 - 250lbs - M=60 - 95 kg / 130 - 210 lbs S=50 - 85 kg / 110 - 190 lbs

Infos: www.fluidkayaks.com

BIG DOG - STORM

NEW FOR 2011

New for 2011! The Storm has been developed from the Big Dog heritage, for intermediate and club paddlers to learn and progress their paddling with confidence. The Storm fulfils this need, with a slightly longer waterline, it's good on the flat but retains the manoeuvrability and predictability of our river running range. The Storm is easy to paddle, easy to maintain and easy to sell. Two levels of outfitting and with the option to spec footrests in either model, it's a sure fire winner!

Length: 265 cm - width: 66 cm - weight: 17.5 kg

Infos: www.bigdogkayaks.com

DAG - SPY 265

NEW FOR 2011

This versatile river runner is designed to reward dynamic paddling, you want a boat that can handle all of it. The SPY is an all-around performance kayak lets paddlers of any experience level tackle technical water. Easy to roll, crisp edging, excellent hull speed, and great stability gives you the control to challenge environments from sleepy creeks to large volume rapids.

Length: 265 cm / 8'7" - width: 64 cm / 25.1" - volume: 293 L / 77 gal

Infos: www.dag-kayak.com

WAVE SPORT - DIESEL 70

They've called it the 4x4 of kayaks. The SUV of river-runners. Runs rapids like a fast creekboat and also has a hull that will spin on green waves. Now it's all that and more. Peaked deck for resurfacing - check. A honed combination of planing hull and continuous rocker for the ultimate in agility - check. Outfitting that will let Sasquatch fit in a kayak - big, hairy, check. This isn't just an evolution of the original. Welcome to the next gen of river-running.

Length: 8' / 244 cm - width: 25.5" / 65 cm - volume: 70 gal / 265 L - weight: 40 lbs / 18 kg - paddler weight range: 120 - 190 lbs / 54 - 89 kg

Infos: www.wavesport.com

EXO - XT 300

NEW FOR 2011

The XT300 is the result of Exokayaks experience and passion suitable for kayakers with heavy-set build. The low baricentre and gliding hull make the XT300 very stable and fast. Designed for extreme use even in fast flowing water. Feature: four handles, two points for anchoring spring clips, ergonomic seat, adjustable puncture-proof footrest and bailing cap.

Length: 258 cm - width: 65 cm - weight: 19 kg - volume: 300 L - paddler weight range: 65-100 kg

Infos: www.exokayak.com

DAGGER - MAMBA CREEKER 8.0

There's a lot of whitewater out there and you want a boat that can handle all of it. This all-around performance boat lets paddlers of any experience level tackle technical water. Easy to roll, crisp edging, excellent hull speed, and great stability gives you the control to challenge environments from steep creeks to large volume rapids. Renowned by beginners and experienced paddlers alike.

Length: 8' / 244 cm - width: 26" / 66 cm - volume: 62 gal / 235 L - weight: 47 lbs / 21 kg - paddler weight range: 150 - 215 lbs / 68 - 98 kg

Infos: www.dagger.com

BIG DOG - FORCE

Semi-Displacement or Semi-Planing, call it what you will but the Force will speak for itself on the river and has already gained a reputation for its speed and agility. The Force is a "Full-On" river runner with a semi-displacement hull, excellent volume distribution, raised rails, rotomolded deck pillar and plenty of rocker. The Force can charge, boof, flare, carve, slide and re-surface with the best of them. In fact, the only limiting factor to the Force's performance is the paddler sitting inside! Fast, safe and responsive, the Force is everything you'll need from a 'proper' River Runner. Available in 2 sizes, 7.7 & 8.0

Length: 231 / 244 cm - width: 64 / 65 cm - volume: 232 / 253 l - weight: 16.5 / 18.5 kg

Infos: www.bigdogkayaks.com

ROBSON - SPORTSTER XL

New school, new boat, next boating generation. A planning hull with disc for improved spinning, carving and holding the line, plus 320 liters of volume for "da big water". With Robson Pro Logic Seat System.

Length: 247 cm / 8'10" - width: 67 cm / 26" - volume: 320 L / 85 gal - weight: 20.6 kg / 45.5 lbs - max. cap.: 90 kg / 198 lbs

Infos: www.robson.de

LIQUID LOGIC - REMIX 59

With the help of dozens of instructors, we designed the new Remix series to carve, glide and to provide beginners, intermediates and experts with that age old rush that comes with speed. Perfect for novices and instructors excited about rolling and proper eddy turns, big water junkies wanting to safely push their limits or experienced racers looking to cash-in, the Remix is a new concept altogether that combines the clear advantages of a relatively narrow and longer hull platform with modern chine placement to create an unrivaled comfortable, stable and responsive package.

Additional notes: Also available in 47, 59, 69, 79, XP9 and XP10

Length: 257 cm - width: 64 cm - weight: 18 kg - volume: 59 gal / 223 L - paddler weight range: 50 - 91 kg

Infos: www.liquidlogickayaks.com

ROBSON - FINKENMEISTER

Not the only C1 on the market but definitely the best. The design of canoe legend Thomas Fink (yes, the man who went over the Rheinfall in Switzerland in a C1) stands for: exact C1 compatible volume distribution and through this, improved reaction and maneuverability. No matter how steep, narrow and high volume the river might be, the kayakers will be following you.

Additional notes: Comes equipped with: foam saddle, knee cups and hip holders

Length: 277 cm / 9'2" - width: 73 cm / 28" - volume: 280 L / 74 gal - weight: 17 kg / 37.5 lbs - max. cap.: 110 kg / 242 lbs

Infos: www.robson.de

GEPLO – ROBOT

Very stable all-round kayak with much room for big paddlers. Easy to control in every situation. Adjustable heavy duty seat and footrest. Best boat for rental.

Length: 343cm - width: 66 cm - weight: 19 kg - paddler weight range: 60 - 120kg

Infos: www.geplo.at

RIOT – THUNDER 65

A current is energy: any source of energy is worthless until it's channeled, cleverly conducted towards an effect. That's exactly what the Thunder does. Point it upstream and its bevelled edges and flat, shallow hull will make any ferry effortless. Point it downstream and all that speed makes it punch through everything like a ram.

Length: 7'8" (234 cm) - width: 25.5" (65 cm) - volume: 65 US Gal (246 L) - weight: 44 lbs (20 kg)

Infos: www.riotkayaks.com

Emery Tillman, Team USA

RIVER PLAY

OFFERING A BIT MORE VOLUME AND STABILITY THAN A FREESTYLE BOAT, WHILE STILL ALLOWING THE PADDLER TO THROW BIG TRICKS.

PYRANHA - LOKI

NEW FOR 2011

With DNA flowing from Molan and Varun, the volume has been taken out of the deck, and the ends lengthened creating a long and slicy playboat boat that will surf, pirouette, wave wheel and allow you to run the river in style. Designed to revive the classic moves that we learned the first time we played the river. Will be available in 3 sizes.

Additional notes: Specs given are for the pre-production medium size

Length: 226 cm / 7'4" - width: 64 cm / 2'1" - volume: 227 L / 60 gal - weight: 15 kg / 33 lbs - paddler weight range: 55 - 90 kg / 121 - 198 lbs

Infos: www.pyranha.com

PYRANHA - VARUN

NEW FOR 2011

The River Runners Playboat Named after the God of Rain the Varun is one boat to do it all. If you want to go back to the fun loving, rain loving, roots of the river, run your home rapid, stop to surf, throw some ends then float down, huck a drop, go back to the top and do it all again the Varun is the boat for you! With maximum playability and slicey ends the Varun allows you to initiate all the classic vertical moves plus enough speed to run the river in style. Available in Small, Medium and Large

Length: M - 205 cm / 6'7" - width: M - 64 cm / 2'1" - volume: M - 221 L / 58 gal - weight: M - 14.5 kg / 31.9 lbs - paddler weight range: M - 55 - 95 kg / 121 - 198 lbs

Infos: www.pyranha.com

DAGGER - AXIOM 8.0

Business in the front, party in the back, the Axiom has shown up on industry top ten lists since it hit the scene. Designed to reward dynamic whitewater paddling, the Axiom features lower volume in the rear of the kayak for outstanding surfing ability combined with increased bow volume for comfort and control, while still offering that needed down-river speed. Great for small to mid-sized paddlers.

Length: 244 cm / 8' - width: 62 cm / 2' - volume: 193 L / 51 gal - weight: 16 kg / 34.5 lbs - paddler weight range: 41 - 68 kg / 90 - 150 lbs

Infos: www.dagger.com

JACKSON - FUN

The third generation of this best-selling kayak earns its name for novices working on fundamentals and bomb-proofing rolls to experts wanting to run hard stuff but still play their way down the river. Improvements include better foot comfort, bow and stern stay out of the water better, smoother/easier paddling, faster and looser for surfing. Available in kids sizes Fun 1 and Fun 1.5 and Super Fun for the biggest fun-lovers. Additional notes: Dimensions listed are for the Fun. Other Fun sizes include the smaller 2Fun and larger 4Fun.

Length: 195.5 cm / 6'5" - **width:** 62 cm / 2' - **volume:** 210 L / 55.5 gal - **weight:** 14 kg / 31 lbs - **paddler weight range:** 61 – 82 kg / 135 – 180 lbs

Infos: www.jacksonkayak.com/2010-fun-series

ROBSON - BLOWFISH

A freestyle weapon defining the next generation - hard edges along the length of the boat, a higher seat position and a higher volume distribution around the cockpit. This radical wave and hole shredding device is double fun. Easy enough to handle for rodeo novices and heavy use playboaters, both have big time fun. Designed by Sebastian Striebel. Additional notes: Pro Logic Seat System and Overthruster

Length: 191cm / 6'3" - **width:** 67.5cm / 2'2" - **volume:** 190 L / 50 gal - **weight:** 15 kg / 32 lbs - **max. cap.:** 90 kg / 198 lbs

Infos: www.robson.de

FLUID - SPICE

Want a fun but not temperamental boat? Add some Spice to your life. With the proven Flirt hull, it is very loose on waves. The length of the boat combined with gradual kick rocker makes it fast, both on waves and downriver. The smooth rails allow carving on a wave, unexpected from a riverrunner, but gives you precise control when manoeuvring in rapids. The Spice is also great fun on ocean waves. Most volume is distributed around the cockpit, where it is also slightly peaked to keep the boat on top of the water. Paddlers on the upper end of the weight range will find the Spice a nice playful riverrunner, while paddlers on the lower end of the weight range can expect a forgiving boat that will allow them to run complex rapids with ease. Perfect boat for beginners.

Length: S= 208 cm / 6'10" - M= 219 cm / 7'2" - L= 228 cm / 7'5" - **width:** S= 60 cm / 23.5" - M= 63 cm / 24.75" - L= 69 cm / 27" - **volume:** S= 175 litres / 46 gal - M= 200 litres / 53 gal - L= 230 litres / 60 gal - **weight:** S= 13 kg / 28 lbs - M= 16.5 kg / 36 lbs - L= 17.5 kg / 38 lbs - **paddler weight range:** - S= 30 - 60 kg / 65 - 130 lbs - M= 60 - 100 kg / 130 - 220 lbs - L= 70 - 110 kg / 155 - 240 lbs

Infos: www.fluidkayaks.com

EXO - PIN UP

Thanks to the flat bottom, the balanced volumes and its rails, the more radical moves become possible. The PIN-UP is ideal for river running and for childrens use due to its stability. The Pin-up can also accomodate paddlers with heavy-set builds.

Length: 187 cm - **width:** 66 cm - **weight:** 15 kg - **paddler weight range:** 50-90 kg

Infos: www.exokayak.com

FREESTYLE

REPRESENTING THE MOST ADVANCED DESIGNS FOR DOING TRICKS ON WAVES OR IN HOLES.

WAVE SPORT - PROJECT X 56

NEW FOR 2011

International competition fiend and longstanding leader in playboat design, Wave Sport introduces the all-new Project X. The highly refined design, new volume distribution and blazing-white outfitting system make it the ultimate in performance and visual excitement. The explosive Project X represents a half-decade of freestyle research from the world's top kayak team. It is the new benchmark in paddler control both on waves and holes, with no sacrifices. It's finely tuned to maintain speed, deliver pop, offer easier release, and provide smooth control over any wave. More volume around the knees gives control, maximum comfort, and a slicier performance at the ends.

Length: 5'11" / 180 cm - width: 25.75" / 65 cm - volume: 56 gal / 212 L - weight: 32 lbs / 14.5 kg - paddler weight range: 140-210 lbs / 64-96 kg

Infos: www.wavesport.com

BIG DOG - KAOS GEN2

NEW FOR 2011

The world of freestyle is far from dead, boats keep on flying higher and switching ends faster than ever before. The Kaos for 2011 is now shorter, more fun and with more pop than ever. We jiggered the proportions, rails and volume to offer more of everything and produce a real contender. Together with our updated outfitting, the bar has just shifted higher than ever before... Available in 3 sizes

Length: 174 / 180 / 184 cm - width: 62 / 65 / 66 cm - weight: 13 / 14 / 14.5 kgs

Infos: www.bigdogkayaks.com

FLUID - DOPE

NEW FOR 2011

It has come to our attention that there are still paddlers out there who want to get high. So we created the Dope. No, you can't smoke it. But you can get high with it. The Dope is the latest progression in the science of freestyle kayak evolution. The fusion of radical design with composite materials technology takes freestyle to the next level. This park and play device takes the best features of proven Nemesis design and combine them in a shorter, compact, more explosive package. Take carbon fibre, high quality glass fabrics, soric core materials and some other fancy stuff, infuse them with epoxy resin in a state-of-the-art mould, cure it all together in an oven, add some fittings. Done? Dope.

Length: 180 cm / 5'11" - width: 65 m / 25.5" - volume: 195 L / 52 gal - paddler weight range: 60 - 90 kg / 130 - 200 lbs

Infos: www.fluidkayaks.com

TITAN KAYAKS - GENESIS

NEW FOR 2011

A boat designed for beginners to excel in and professionals to change the sport in. Fast and responsive, loose but with edges that bite on a carve, quicker edge to edge transitions for a smoother release, along with a sharp off water trajectory. Whether you're searching for that epic new move or simply want to enjoy a weekend river run with friends this boat does it all... in style. Currently Available in two sizes: Genesis V:II (47gal) Genesis V:III (60gal)

Length: 5'10 1/2" / 179 cm - width: 25 3/4" / 65 cm - volume: 47 1/2 Gal / 180 L - weight: 14.5 kg - paddler weight range: 120-180 lbs / 55-80 kg

Infos: www.titankayaks.com

PYRANHA - MOLAN

Developed closely with Team Pyranha paddlers, the Molan is seriously refined. It's THE dynamic park 'n' play machine for those looking to go big, high and fast! The Molan is a user-friendly, spin happy playboat capable of really fast rotation - perfect for paddlers looking to throw combo moves together. Whether you're after the highest competition score or just want to nail new tricks, you'll soon be ripping up the scene like you've never done before! Available in 3 sizes Small, Medium and Large

Length: S=176 cm / 5'7" - M=182 cm / 6'1" - L=194 cm / 6'3" - Width: S=61 cm / 24,5" - M=64 cm / 25,5" - L=67,5 cm / 26,5" - Volume: S=175 L / 46.2 gal - M=214 L / 52.8 gal - L=245 L / 65 gal - Weight: S=13,8 kg / 30.4 lbs - M=14 kg / 30.8 lbs - L=15,1 kg / 33 lbs - Paddler weight range: S=40-80 kg - M=55-90 kg - L=85-130 kg

Infos: www.pyranha.com

JACKSON - ALL-STAR

The go-to boat for the world's best paddlers helps hometown paddlers feel like champions too. Equally at home on waves or holes this powerful, compact, lightweight boat delivers lightning fast moves and huge air whether learning a trick for the first time, or performing the hardest tricks with the biggest amplitude in national and world championships around the globe. This boat is available in kids sized Shooting Star, Plus Star, Super Star and the linebacker sized Mon-Star. Teaser: look for the new Rock Star, the champions' choice, debuting Spring 2011.

Length: 5'10" - width: 25 3/4 gal - volume: 55 1/2 gal - weight: 30 lbs - paddler weight range: 130 - 200 lbs

Infos: www.jacksonkayak.com

ROBSON - TWIN-TIP

Radical goes like this: fat aerial moves and hard core loops. Here's your weapon. Hull extra wide and super loose for spins, swallow tail stern and hard edges along the sides of the hull for carving on a wave or in a hole. Get in it now!

Length: 196 cm / 6'6" - width: 66 cm / 26" - volume: 190 L / 50 gal - weight: 14kg / 32l bs - paddler weight range: 50-95 kg / 110-209 lbs

Infos: www.pyranha.com

FLUID - NEMESIS COMPOSITE

We now bring you the Nemesis in composite materials for the ultimate in playboating performance. The composite version is lighter and more rigid, enabling bigger moves, higher speed and crisper performance than any plastic boat can. We only use the best materials for the job. The hull is a sandwich construction of carbon/kevlar, various types of glass and a Soric core, all vacuum infused with a top quality vinylester resin to create the ultimate blend of strength and durability versus weight. The deck has a similar construction, but with a gel coat finish and without carbon/kevlar.

Additional notes: The composite Nemesis has a lightweight composite seat, while it shares some of the standard fittings of the plastic kayaks such as thigh braces with ratchets, backrest, hip pads and foam pillars.

Length: 187 cm / 6'1" - **width:** 65 cm / 25.5" - **volume:** 200 L / 53 gal - **weight:** 12 kg / 26 lbs - **paddler weight range:** 65-95 kg / 140-210 lbs

Infos: www.fluidkayaks.com

RIOT - ASTRO 58

Feel as light as a feather. With release edges all around the hull, the perfect amount of rocker back and forth and just the buoyancy you need to push it down enough, without staying down too long upon landing. The result? A bouncing machine that will let you show it off without kicking you off the curb in the next curve. Sounds like a performance but very forgiving playboat!

Length: 193 cm / 6'4" - **width:** 66 cm / 26" - **volume:** 220 litres / 58 US Gal - **weight:** 16 kg / 35 lbs

OTHER

SURF, INFLATABLE, AND TANDEM KAYAKS OFFER THE FULL RANGE OF FUN ON THE RIVER.

BIG DOG - KAOS OC1

NEW FOR 2011

Developed for competitive freestyle, the Kaos OC1 immediately impresses. On it's first time out on the water (in the UK selection events!), the OC1 qualified for the British team, and straight away became the most sought after OC1. Produced only as a composite model, the Kaos OC1 brings deck-less paddling ever closer to the realms of closed deck, kayak conversions. The Kaos OC1 is only the beginning - for OC1 paddlers into creeking, check out the forthcoming Force OC1!

Length: 193 cm - width: 71 cm - weight: 12 kg

Infos: www.bigdogkayaks.com

JACKSON - ROGUE

NEW FOR 2011

The quiver of one for the paddler that wants to do it all - meandering rivers, light touring, Class II-III whitewater - this hybrid whitewater/touring design goes downriver with confidence and crosses lakes with precision glide. A generous waterline and retractable skeg lets you check out the scenery without worrying about getting off track. Adjustable hip pads and foot braces plus a Surelock backband add up to long-term comfort while ample storage keeps gear dry for overnight trips. Available in two sizes, Rogue 9 and Rogue 10.

Length: 9'4" - width: 27.75" - weight: 44 lbs

Infos: www.jacksonkayak.com

BIG DOG - KARMA

NEW FOR 2011

There's a strong vein of squirt paddlers involved with Big Dog, so it was a logical step for us to want to build our own squirt boat - enter the Karma! Completely fresh for 2011, the Karma is a thoroughly modern squirt boat, but it's oozing soul from its seam lines. Smooth lines are the order of the day, which translate to smooth moves on the river. And with a strong background in composite boat building, you can be sure the Karma will be built to the best specs possible.

Length: 245 cm / 8' - width: 56 cm / 1'10" - volume: custom - weight: custom from 10kgs / 22 lbs - paddler weight range: custom

Infos: www.bigdogkayaks.com

VALLEY SURF KAYAKS - NEMESIS

NEW FOR 2011

For 2011 Valley are launching their new international class surf kayak, the Nemesis. All our knowledge has been piled into the Nemesis to create the most up to date and hardcore IC surf kayak on the market. With a unique double concave in the tail (carefully measured to meet IC class rules), and a long distinct V with razor sharp edges, the Nemesis will make you the force to be reckoned with. The newest IC boat on the market, Nemesis is an absolute charger down the line, with a razor sharp tail and unique concaves in the hull, it takes no prisoners!

Length: 302.5cm / 9'11" - width: 58.5 cm / 1'11" - weight: from 9 kg / 20lbs

Infos: www.valleysurfkayaks.net

JACKSON - DYNAMIC DUO

This is a high performance tandem with all of the comfort, dryness, durability, ease of rolling, and outfitting of Jackson Kayak's top of the line Hero series. Suitable for teaching, guided river trips or bringing a friend, child or significant other along, the Dynamic Duo really opens up paddling to those who aren't quite ready to go solo! Designed to deliver optimum performance over a wide range of weights and distributions.

Length: 12' - width: 26.5" - volume: 143 L - weight: 65 lbs - paddler weight range: 265 - 500 lbs

Infos: www.jacksonkayak.com

WATERTECH - 666

By far the most comfortable of all IC's, this kayak is fast & fun. It can be a true revelation to those who never surfed a long boat before. It is a World Winner with our W-Team paddler Ainhoa Tolosa. Pleasure or sin? You have to try it to know the answer. Key Features: Lots of rocker for release. Sharp Rail hull for speed and turning. Much room for legs & feet. Large cockpit for easy exit (keyhole). Comfortable adjustable seat and backband. Future Fins Box (3 fins included).

Length: 303 cm / 9'11" - width: 59 cm / 1'11" - weight: 8 kg / 18 lbs - paddler weight range: 50 - 110 kg / 110 - 242.5 lbs

Infos: www.watertechkayaks.com

WATERTECH - ONA

ONA in Basque language means Great, Nice, Good thing. Designed by Edu Etxeberria, paddled by Chris Harvey and the Junior World Champion Adam Harvey, this is our top end machine. Speed, radical turns, flying. This one is ready to do whatever you think of. ONA = Our New Airmachine :-). Key Features: Hard Rails for speed and hyper fast turns. Outstanding Design. Room for the feet and legs. Large cockpit for easy exit (keyhole). Comfort and adjustable seat and backband. Adjustable foam footrests. Adjustable Center Fin US Box.

Length: 234 cm / 7'8" - width: 62 cm / 2' - weight: 6 kg / 13 lbs - paddler weight range: 40 - 90 kg / 88 - 198 lbs

Infos: www.watertechkayaks.com

PYRANHA - FUSION

The Fusion allows paddlers to enjoy two great areas of paddle sport, whitewater and touring. Super stable, fast and easy to paddle, the Fusion gives you the freedom to choose from some fun whitewater, checking out a sheltered bay or making overnight trips and letting paddlers really enjoy the great outdoors. Also available in small size.

Length: 312 cm / 10'2" - width: 66 cm / 2'2" - volume: 308 L / 81.5 gal - weight: 20.8 kg / 46 lbs - paddler weight range: 55 - 130 kg / 121 - 287 lbs

Infos: www.pyranha.com

FLUID - DONSA

The Donsa is a plastic slalom kayak that delivers high performance in an affordable, almost indestructible package. The Donsa complies with full ICF regulations and can be used in ICF sanctioned slalom competitions. The Donsa's heavier weight means that you won't take it to the Olympics, but the tough construction makes it perfect for beginner to intermediate slalom kayakers and slalom clubs. The Donsa is not just a kayak for slalom paddlers though. Kayakers who like a fast kayak for downriver play, or who just want to experiment with new lines in rapids or experience a different way of running rapids, can make good use of the Donsa's agility.

Length: 353 cm / 11'6" - **width:** 60 cm / 2' - **volume:** 200 L / 53 gal - **weight:** 15.5 kg / 34 lbs - **paddler weight range:** 50 - 90 kg / 110 - 200 lbs

Infos: www.fluidkayaks.com

FLUID - ELEMENT COMPOSITE

We bring you the Element in composite materials for the ultimate in surfboating performance. The composite version is lighter and more rigid, enabling bigger moves, higher speed and crisper performance than any plastic boat can. The hull is a sandwich construction of carbon/kevlar, various types of glass and a Soric core, all vacuum infused with a top quality vinylester resin to create the ultimate blend of strength and durability versus weight. The deck has a similar construction, but with a gel coat finish and without carbon/kevlar. The composite Element has a lightweight composite seat, while it shares some of the standard fittings of the plastic kayaks such as thigh braces with ratchets, backrest, hip pads and foam pillars.

Additional notes: The composite Element uses the same quad fin setup as the standard plastic Element, with fins from 4WFS.

Length: M=187 cm / 6'1" - L=230 cm / 7'6" - **width:** M=65 cm / 2'2" - L=65 cm / 2'2" - **volume:** M=200 L / 53 gal - L=230 L / 60.5 gal - **weight:** M=12.5 kg / 27 lbs - L=12.7 kg / 28 lbs - **paddler weight range:** M=65 - 95 kg / 140 - 210 lbs - **cockpit size:** 49 x 87 cm / 1'7" x 2'10"

Infos: www.fluidkayaks.com

LIQUIDLOGIC - REMIX XP9

Finally, an all-river kayak design that is as dynamic as the rivers it calls home. Features a hull design that can handle anything the river can throw at you, an integral skeg for stretches of flatwater, and a hatch that can carry a week's worth of gear. Available 9' and 10'.

Length: 9' 3" - 282 cm - **Width:** 26" - 66 cm - **Weight:** 46 lbs - 21 kg - **Cockpit:** 36" x 21.5" - 91 cm x 55 cm - **Volume:** 75 gals - 284 l - **Paddler weight range:** 100 - 220 lbs - 45 - 100 kg

Infos: www.liquidlogic kayaks.com

GRABNER - JUMP

Grabner, the Austrian manufacturer of high quality inflatable canoes, recently came up with an innovative product that clears out difficulties, where solid-hull whitewater kayakers become problematic: storage at home and transportation on the way is not always easy with an every increasing number of boats in your quiver. For travelling by car a roof rack or trailer is required, and transportation by train or plane is everything but convenient with all your whitewater gear. Given the fact that whitewater trips to distant locations worldwide are becoming increasingly popular, time has come to design a boat, which meets all the requirements of a short-length whitewater kayak, but offering easy transportation and storage at the same time.

Overall length/width: 245 x 69 x 42 cm - 8' 5" x 27" x 17" - **Volume:** 202 l - 12322 cu.ins. - **Weight:** 18 kg - 40 lbs - **Minimal packing size:** 80 x 50 x 25 cm - 31" x 20" x 10" - **Air chambers:** 5 - 5 - **Assembly time (min):** 6 - 6 - **Operating pressure:** 0,3 bar - 4,3 psi - **White-water category:** 4 - 4 - **Material (natural rubber):** 1100 dtex - 1100 dtex - **Color:** Red-black - Red-black

HIGH END

LIGHTWEIGHT CONSTRUCTION AND ADVANCED TECHNOLOGY CREATE A HIGH PERFORMANCE PADDLE.

SOMMER DESIGNS – KINKY

NEW

The Kinky from Sommer Designs is a paddle made for wild water paddlers. With a positive bent shaft it offers propulsion and performance like a slalom paddle. Using carbon/kevlar construction in blade and shaft gives the paddle the perfect balance between being tough for whitewater use, but still allowing for enough flex to be gentle to joints on long, hard days on the river. Each blade and shaft are moulded in one unit, then joined in the middle of the shaft.

Length: 192 – 202 cm - **weight:** ca. 1000 g - **blade size:** 48 cm x 20.5 cm - **feather:** 30° / 45° / 60° - **material:** Carbon/Kevlar

Infos: www.sommerdesigns.co.nz

CORE – WHITEWATER BENT

NEW

CORE Paddles introduces the most technically advanced kayak paddle ever brought to market. Designed using the world's first Easton alloy one piece bent shaft, and ergonomic molded grips, this paddle is ultra comfortable and super light. Couple that with the unique tri-hedral blade design for un-compromised power and this is the new benchmark for whitewater paddles. Available 2011.

Length: 188 – 197 cm - **weight:** 1050 g - **feather:** 12° - 30° - **material:** Easton / Carbon

Infos: www.corepaddles.com

LIGHTNING – THUNDER & LIGHTNING

NEW

Back at ya... Lightning Paddles are back. One of the very best blades ever developed. A large surface area means good purchase on the water and an easy roll. Oval bent shaft makes it easy to maintain your grip and know exactly where your hand is. Smooth and powerful on the catch. Used by the whole Jackson crew. As EJ says, "low maintenance and high trust".

Length: 190 - 200 cm - **weight:** 1.000 g - **blade size:** 42 x 21.5 cm - **feather:** 45° (straight shaft), 30° (bent shaft) - **material:** Carbon

Infos: www.lightningpaddles.com

AT2 – SUPERDUTY

NEW

The AT2 Superduty, originally an underground legend only available to AT's Pro Athlete Team, is now available to all paddlers. The Superduty is known for its powerhouse strength featuring additional staff reinforcement, unibody construction, full control grip and weighing in at 40.5 oz. Unibody Construction; Full Control Grip. material: Shaft-Carbon & Aramid Braid; Additional Shaft Reinforcement

Length: 191 - 200 cm - **weight:** 40.5 oz / 1.158 g - **blade size:** 710 cm²; Carbon Braid with Dynell Protected Trim, Urethane Foam Core. - **feather:** 30°, Custom Available

Infos: <http://adventuretechnology.com>

PANENKA – ROCKY

NEW

Premium kayak paddle for playboating and freestyle. Stiff and superlight blade for stable and powerful stroke, both forward and backwards. Shafts as per your choice.

Length: 180 - 205 cm - **weight:** 890 g - **blade size:** 673 cm² - **feather:** 0°- 60° - **material:** prepreg carbon technology

Infos: www.panenka-paddles.cz

SELECT – W1

Cut out for adventure, the W1 is the archetypal versatile paddle. Extremely resistant, this paddle can go anywhere and is multi-purpose. W1 standard is delivered with Kevlar Carbon blades and Ergonomic Carbon Shaft (ovalized tube). Additional notes: Available in straight shaft. Fixed or adjustable.

Length: 180 - 204 cm - **weight:** 950 g - **blade size:** Medium: 46 x 20 / 648 cm² and Large: 47 x 20,5 / 703 cm² - **feather:** custom / adjustable - **material:** Kevlar carbon

Infos: www.select-kayaks.com

OPHION - CYCLONE

The Ophion Cyclone paddle is made to be dynamic and powerful, while maintaining stability and precision. The Ophion Cyclone paddle is designed for creek and river running and is suitable for a variety of kayakers. The carbon blades are assembled on a carbon/kevlar shaft. The paddle is designed to be durable and stiff, which allows you to feel great feedback from each stroke. Ergo one piece shaft or straight shaft.

Length: 190 – 205 cm, custom - **weight:** 950 g straight, 1.000 g ergo - **blade size:** 44 x 20 cm - **feather:** 30°, 45°, custom - **material:** Carbon/kevlar

Infos: www.ophionpaddles.com

KOBER - SCORPION EFC

This high end whitewater paddle with Entire Foam Core has been difficult to beat to date. The EFC-technology gives a lot of advantages to the seasoned whitewater paddler: More volume in the blade gives enhanced buoyancy even in air filled water. Bracing and rolling are made much easier. It has an even, hydrodynamically perfect cross-section (without any impairing ribs and edges) for a balanced performance so no fluttering or splashing will occur. Stiff, light-weight blades through carbon laminate.

Length: 191 – 203 cm, in steps of 3 cm - **weight:** straight: 850 g, ergo: 990 g - **blade size:** 47,5 x 20,2 cm - **feather:** 45° R/L - **material:** carbon

Infos: www.kober-paddel.de

ROBSON - HELLS BELLS

This ain't your Grandma's paddle - baby! Design: BIG down turned blades for more positive power and less chance of catching on your boat in crucial moments. Technology: HIGH performance Flowtech material - lighter, more durable, allowing quick moves and no worries. Rock it. Additional notes: Robson makes it the way you want it. Shaft available in: straight fiberglass or carbon and bent carbon feather versions.

Length: 190 – 200 cm - **weight:** 1000 – 1100 g - **blade size:** 42 x 22 cm - **feather:** 45° standard - **material:** Flowtech

Infos: www.robsonpaddle.de

AINSWORTH - RTM 105 CARBON PLAYSTICK

A more extreme version of our 104 Sidekick blade, this paddle is ideal for extreme playboaters, with smaller, carbon RTM drop sided blades to maximise each power stroke.

Length: 185 – 205 cm - **weight:** 880 g - **feather:** 30° / 45° - **material:** RTM (Resin Transfer Moulded)

Infos: www.ainsworthpaddles.co.uk

WERNER - DOUBLE DIAMOND

- Performance Core blades are light and buoyant in aerated water
- Enhances play boating moves and rolling
- Down turned blades have a powerful catch that responds and releases on demand
- Impact Resistant Kevlar(tm) and a double layer of Dynel(tm) edging adds durability
- Available in straight or neutral bent; standard or small diameter

Surface Area: 700 cm² - **Blade Length x Width:** 48 x 19.5 cm - **Weight for 197 cm:** Straight Shaft: 992 g/35 oz - Neutral Bent Shaft: 1049 g/37 oz - **Available Lengths:** Straight Shaft: 185 – 206 cm - Neutral Bent Shaft: 188 – 203 cm

PERFORMANCE

WITH PROGRESSIVE TECHNOLOGY AND SHAPE, PERFORMANCE PADDLES SUIT THE ADVANCED KAYAKER AND MAKE CRUISING A PLEASURE.

TY WARP – FIRE 3.1

NEW

The Fire 3.1 is the new entry model to our foam core paddle collection. It is built to perform and is the ideal choice for slalom and white water kayakers who look for a great price-performance-ratio. Its asymmetric aquadynamic blade shape is very balanced and offers exact feathering and flutterfree and powerful strokes. The combination of high density foam core, glass blade and glass-carbon shaft makes it a stiff yet forgiving paddle. Thanks to its glass fibre content it offers more flex than our carbon models. The Fire 3.1 is available as straight shaft only.

Length: 192, 195, 198, 201, 204 cm - **weight:** 1.100 g - **blade size:** 47 x 21 cm - **feather:** 45° - **material:** glassfibre/carbon

Infos: www.tywarp.com

PANENKA – BLISS

NEW

Flexible kayak paddle for most demanding paddlers. Stiff and superlight blade for stable and powerful stroke. Shaft as per your choice.

Length: 180 - 210 cm - **weight:** 900 g - **blade size:** 20,5 x 45 cm - **feather:** 0°- 60° - **material:** prepreg carbon technology

Infos: www.panenka-paddles.cz

OPHION – RAPTURE

The Ophion Rapture paddle is designed to be dynamic and powerful, while maintaining stability and precision. The new Rapture blade has been made with the extreme freestyle paddler in mind, bringing you the latest in composite materials and unique design. Carbon blades are assembled on a carbon/kevlar shaft. This paddle is designed to be durable and stiff, which allows you to feel great feedback from each stroke.

Length: 190 – 200 cm, custom - **weight:** 950 g straight, 1.000 g ergo - **blade size:** M: 43cm x 21 cm - **feather:** custom - **material:** Carbon/kevlar - **sizes:** S, M, L

Infos: www.ophionpaddles.com

KOBER – ZOMBIE EFC

Zombie EFC: Powerful. Unstoppable. Green. With this new whitewater paddle all advantages of the EFC-technology (Entire Foam Core) are now available in low-priced fibreglass construction. It has more volume in the blade for enhanced buoyancy even in air filled water. Bracing and rolling are made much easier. It offers an even, hydrodynamically perfect cross-section without any impairing ribs and edges, for a balanced performance with no fluttering or splashing. Stiff, light-weight blades.

Length: 191 – 203 cm - **weight:** 1.070 g straight, 1.130 g ergo - **blade size:** M=47 x 19,3 cm L= 47,5 x 20 cm - **feather:** 45° R/L - **material:** carbon/aramid/fibreglass - **size:** L, M

Infos: www.kober-paddel.de

AT – PLAY CARBON

The Play Carbon features a lightweight ergonomic carbon shaft and a moderately sized fiberglass blade. The durability and design makes it a perfect paddle for either playboating or river running. Full Control Grip; Available in standard Diameter or small Diameter.

Length: 191, 194, 197, 200 cm Standard, Custom Available - **weight:** 41.0 oz / 1,162 g - **blade size:** 728 cm²; - **feather:** 30°, Custom Available - **material:** Carbon

Infos: www.adventuretechnology.com

TNP – RAPA

This kayak paddle allows you to paddle down any type of whitewater. It is available on four types of shafts (duralumin, fiberglass, carbon, carbon-kevlar), also with YP coupling which allows you to set any type of angle and extend the paddle up to 10 cm, allowing each paddler can choose their most suitable combination. The paddle can be also produced as a simple split paddle, perfect as your spare paddle in your boat.

Length: 182 - 240 cm - **weight:** 860 - 1160 g - **blade size:** 713 cm² - **material:** technical plast (PA)

Infos: www.tnp.cz

ENTRY LEVEL

MADE IN A VARIETY OF SHAPES, ANGLES, AND SIZES, WITH PRICING ACCESSIBLE TO ALL PADDLERS.

KOBER - ENERGY

NEW

The top model of the ATT-whitewater-series! Reinforced polyamide(Nylon®) with carbon provides impact resistance, durability and lightest weight. With the precision of a composite paddle and its sophisticated hydrodynamics without impairing ridges and edges, you will always have the power for the perfect line, even in trickiest whitewater.

Length: 194 - 203 cm - weight: ca. 950 g - Level: perform. - new: Yes - blade size: 45 x 19,6 cm - feather: 45° R/L - material: polyamide/carbon fibre

Infos: www.kober-paddel.de

TNP - JAGO

NEW

This kayak paddle is designed for whitewater kayaking. It will be mainly produced on the 28 mm diameter shaft but is available on 30 mm shaft as well. With its smaller blade area, it fits perfectly into hands of junior paddlers or women but it has already captured the attention of many paddlers, with its great design and features. Available in yellow or black color.

Length: 182 - 240 cm - weight: 750 - 970 g - blade size: 608 cm² - Additional notes: Available from January 2011!

Infos: www.tnp.cz

PROFIPLAST - XENA

THE XENA is specially designed for whitewater kayaking and rodeo and provides you a smooth and strong forward and backward stroke. Its thermoplastic blade with progressive shape filled with carbon fibres has an excellent abrasion resistance. The blade surface is 719cm², with a duraluminium or composite shaft, in one-piece version.

Length: 180 - 220 cm - weight: from 976 g - blade size: 719 cm² - feather: custom - material: thermoplastic with carbon

PFD'S CREEK

OFFERING EXTRA FLOTATION AND OPTIONAL SAFETY GEAR FOR USE ON HIGH-LEVEL WHITEWATER.

NEW

ASTRAL - 2011 GREEN JACKET

The world-famous GreenJacket gets improved for 2011! The Tectonic platform consists of two separate front buoyancy panels allowing the Greenjacket to stay in place while providing unrestricted range of motion when paddling, swimming, or performing an in-water rescue. This device is equipped with a quick release rescue bel, large front pocket, rope sleeve (to hold an Astral throw bag), two side cargo pockets, Flotation padding for the ribs and back, quick release carabiner park for a bungee style tow system, Spectra® safety loop for secure anchoring and more.

Sizes: S, M, L

Infos: www.astralbuoyancy.com

NEW

HYDRAULICS - RIVER PRO

The River Pro is a top of the line PFD designed specifically for river paddling. The River Pro PFD is incredibly comfortable with our integrated harness system providing a snug and secure fit, clamping the vest to your body. Benefits: Integrated harness system: all straps are attached to the skeleton of the PFD so that it won't move around when paddling. Padded shoulders make carrying your boat during portages easier. Large kevlar covered pocket so your belongings can be stored and protected. 38mm towline belt with quick release cam and a stainless steel ring. Attachment point to integrate the PFD to your climbing harness on those tricky walk-ins.

sizes: S, M, L

Infos: www.hydraulics-nz.com

NEW

NOOKIE - RIVERMONSTER

Adjust your vest the first time you wear it and never need to again. Or tweak the fit for a different person, season, layering - instantly. Punch and carve down a class V canyon with the unrestricted kinetic ability of a slalom paddler. Configure the chest belt for auto, positive, or zero release. Organise and access must-have tools one handed and without fiddly zips or Velcro. Strap into a sling harness for an abseil or a rescue. Swim passively or aggressively with intelligently distributed high level flotation. Be confident with unsurpassed critical (clavicle, kidney) impact protection, and the continuous seat-belt webbing internal harness. Be seen and safe.

sizes: S/M, L/XL

Infos: www.nookie.co.uk

NEW

PALM - EXTREME

The Extrem vest evolution continues, setting new standards in safety, function, and comfort. Palm's flagship front-opening PFD with masses of storage. Additional notes: Flex Formed Foam front panel wraps around torso • Quad-buckle front entry • Large, zipped, padded front cargo pocket with internal divider • Chest mounted zipped knife pockets • Internal rear padded pocket for documents, safety gear or hydration bladder • Tough grip panels at shoulder for boat carrying • 3D anti ride-up waistbelt • Easy Glide strap adjustment throughout...

sizes: XS/S (65 N), M/L (70 N), XL/XXL (75 N)

Infos: www.palmequipementurope.com

NEW

PALM - LUNA (Women)

Designed specifically for women, featuring a front opening, female fitting foam template. Removable chest harness and foam lined cargo pocket make this an industry leading design. Additional notes: Wedge shaped front foam panel tapers towards the top to provide unparalleled comfort for the female form • Flex Formed Foam front panel wraps around for a secure fit • Soft Vent Mesh chest support for comfort and fit • Quad-buckle front entry • Large, zipped, padded front cargo pocket with internal divider...

sizes: WXS/S (60 N), WM/L (65 N), WXL/XXL (70 N)

Infos: www.palmequipementurope.com

NEW

YAK - ESCAPE

2011 sees the launch of the Escape 70N from Yak. This ISO approved white water PFD combines comfort with durability and excellent features, all at a very competitive price. The Escape features full Cordura construction to take all the abuse you can throw at it, low slung front and cut-away rear super-soft buoyancy panels to give the best possible paddling freedom, large front cargo pocket, knife pocket and fleece lined hand warmer pockets, detachable rescue harness belt which can be worn right or left handed, and karabiner park. Available in Red/Black or Blue/Black.

sizes: S/M, M/L, XL

Infos: www.yak-paddling.com

KOKATAT - RONIN PRO

Trimmed-down profile and unique internal harness provide a comfortable, secure fit, full spinal and improved side protection. Reinforced adjustable, thermal molded foam padded shoulders with non-slip Hypalon® grip panels, an integrated sleeve for a cowtail or small tow tether, and superlative construction methods set a new standard in PFD design. Made with GAIA® PVC-free foam.

sizes: S/M (16/05), L/XL (17/05),
XXL (18/00)

Infos: www.kokatat.com

ARTISTIC - ORCO PRO ARS 450 D

STOHLQUIST - DESCENT

A fully supplied PFD for serious white water missions. In spite of numerous safety features like a quick release belt and a big front pocket for accessories and provisions it is not bulky and offers a real wide operating range. Six different adjusting features at chest, belly and waist offer a perfect fit. The cross chest cinch straps and the Gripp-Loc™ panels help to avoid any kind of unintended ride-up. The ergonomically articulated "Wrapture™-Design" encloses the torso and free floating suspended shoulder straps with stiffeners and a cloth textured surface for portaging, help to improve the overall mobility.

Sizes: S/M, L/XL, XXL - Color: mango, red

Infos: www.stohlquist.com

LANGER - AKC SHAPE

One of the best selling pfd's in the industry. Designed with a team of the AKC to provide extraordinary protection and comfort. 3 piece Front panel for perfect fit. Multiple fit adjustments. Front pocket and inside pocket.

sizes: S-XL - color: yellow, red

Infos: www.textil-langer.de

PEAK UK - RIVER GUIDE

DUEMSTUFF - FREESTYLE PDF

Even though the eye-catching designs of Duemstuff freestyle vests have been raising eyebrows for the last few years, they still decided to redesign them. New back shape, strapped body shell and more buoyancy bring you the vest that is a made to improve freestyle performance of any level paddler. Many new details and freaky designs add special value to this vest.

sizes: S/M, M/L, L/XL

Infos: www.duemstuff.com

ASTRAL - WILLIS

The Willis is a great whitewater, freestyle or general use jacket incorporating Astral's Tectonic fit style. The front of the Willis is separated into two panels.

Foam inserts: Gaia™ foam
Shell fabric: 500 denier cordura® nylon
Liner fabric: 200 denier nylon
Hardware: Acetal plastic
Webbing: Nylon
Colors: Charcoal, Orange

Sizing: S/M, M/L, L/XL

Infos: www.astralbuoyancy.com

STOHLQUIST - ROCKER

The ROCKER with its body wrapping and ergonomically articulated shaped torso stands for a maximum freedom of movement. The cross-chest cinch harness adjustment and the self-tensioning shoulders ensure a great fit, following every rotation of the torso. The Gripp-Loc™ interior non-slip panel helps to avoid any kind of ride-up, and the 6 adjustments, side pulls and a front waist buckle closure, make sure that the ROCKER stays in place. The rugged Cordura shell stands for durability and stiffened contour padded shoulder straps help portaging and add shoulder protection.

Sizes: S/M, L/XL, XXL
Color: mango, red

Infos: www.stohlquist.com

PEAK UK – STORM PANTS

High back fit for seated use. Articulated bum and knees. Fully taped seams. Breathable and durable heavy weight X3 fabric with 30m waterproofing. Ripstop Cordura knees and bum. Fourway stretch X4 breathable, waterproof and durable fully taped socks with flatlocked seams. High neoprene waist with elasticated draw cord and shoulder straps. Cargo style pocket with gear loop. The best pants on the water.

Sizes: XS – XXL

Infos: www.peakuk.com

NEW

NOOKIE – XTREME DRY TROUSERS

Pull them on and they don't feel like technical outerwear, they're comfortable. But clearly very tough. You can kneel down on rock or concrete, or slither down a steep granite boulder on your arse, and you know it. Listening to popular demand we have now added tunnel sox to ensure no ingress of water and a more durable product. The waist hugs you. You don't have to adjust it, any more than you do a spraydeck. It just is. And then you pretty much forget about your trousers. Because they won't bother you. They don't leak, they don't bind or chafe, and they don't get sweaty. Stand up and they're just there. Sit down, and they still are. No chinks in the small of your back or anything like that.

Infos: www.nookie.co.uk/xtremedry

LANGER – SICKLINE

State of the art dry pants made from high performance 3 layer material. Double tunnel and neoprene hip construction. Super smooth neoprene dry cuffs at ankles.

sizes: S-XXL - color: black

SWEET PROTECTION - WANDERER

The Wanderer is a dependable all-around helmet. The small beak keeps water and sun from your eyes and offers protection. Direct ventilation and drainage with a superior fit thanks to our neck-hugging "Occgrip" system.

sizes: S/M, M/L, L/XL

Infos: www.sweetprotection.com

PREDATOR - FULLCUT

The Full Cut features the Occipital Protuberance-hugging (OP-Hug) shape at the rear of the head for full protection as well as a secure and comfortable fit. Lock-down a perfect fit with the New Predator Double Torque® rear adjuster. Ventilation and drainage are provided by our signature Predator Three Ellipse® vent holes. The shell is made of high impact Ralvek® thermoplastic for increased stiffness and protection. A comfortable closed-cell waterproof EVA foam is used to dissipate impacts. Other features include top quality webbing and buckles, and stainless steel chinstrap rivets. CE EN

sizes: one size with fit pads

Infos: www.predatorhelmets.com

SWEET - ROCKER FULLFACE

The Rocker Fullface offers full coverage for the most extensive protection. All the features you'll ever need in a helmet. Carbon fiber reinforced composite shell, High impact ABS occipital shell, EPP padding w/Coolmax® liner, Removable ear pads with EVA frame, PP straps w/ PA buckles, Ventilation channels, Adjustable visor, Carbon fiber reinforced jaw protector.

Weight: 750g (M/L) - Certification: CE EN 1385

Sizes: M/L (56-59 cm) - L/XL (59-61 cm)

Infos: www.sweetprotection.com

WHITEWATER PLAY

PROVIDING PROTECTION TO REDUCE THE RISK OF INJURY IN THE EVENT OF SERIOUS IMPACT AND OFFERING SOLID HEAD PROTECTION FOR WHITEWATER FREESTYLE PADDLING

NEW

WRSI - TRIDENT

The Trident is the first composite helmet from WRSI. Composite style and look with the impact protection and safety features you trust from WRSI.

sizes: 54-59 cm

Infos: www.wrsisafety.com

SPREU - BUMPER

Our Bumper shell is constructed from high density polyethylene with an adjustable plastic retention system that ensures a proper fit for just about all head sizes. The inside of the shell is completely padded with EVA closed cell foam which will protect against most high impact collisions. An adjustable side-release buckle guarantees a clean, secure fit. CE-approved. Colors: red, white, blue, yellow and black.

Additional notes: For 2011 we are working on developing a new Bumper helmet for children and smaller head sizes.

sizes: 50 - 60cm

Infos: www.spreu-boats.com

SHRED READY - SUPER SCRAPPY

Features: ABS injected moulded shell, HOG Lock retention system, S-L fitting pads included. Colors - Carbon Black, Carbon Blue, Gloss Black, Matte White. Plus for 2011 - Electric Blue

sizes: Custom fit using HOG Lock retention system

Infos: www.shreadready.com

SHRED READY - STANDARD

A new standard in helmet design has been set with the introduction of the SR Standard. Designed from the ground up to provide unparalleled performance. Features: ABS molded shell EPP liner - improved for better fit HOG 2.0, Occipital Lock, Interchangeable color coded fitting pads (Sm, Md, Lg), Nylon straps attached with metal strap hangers, 8 color choices. Meets and exceeds CE 1385 International Standard for Whitewater Helmets. Also offered in our unibody carbon composite, Carbon Fiber, Kevlar and Fiberglass.

sizes: Interchangeable fitting pads (S, M, L)

Infos: www.shreadready.com

NIL - RHINO HC

NIL - the American-Baseballcap! Having found a brand new method of manufacturing a shell with new look, NIL is able to offer a wide range of choices according to customers individual requests. For many years international top athletes have relied on NIL helmets made of GFK-prepreg. NIL, formerly known as Riverstar, stands for high-quality products and the finest Austrian melon protection you can find. Weight: 380 g

sizes: S/M: 53-56 - M/L: 56-59 - XL: 59-62

Infos: www.nilstyle.com

PREDATOR - LEE

Visor provides total eye and sun protection. The shell is made of high impact Ralvek® thermoplastic for increased stiffness and protection. A comfortable closed-cell waterproof EVA foam is used to dissipate impacts. For a locked-down fit, the Lee features the Croc-Lok® rear adjuster. Other features include rubber edging trim, top quality webbing and buckles, locking side divider and stainless steel chinstrap rivets. CE EN 1385

sizes: XS-M, L/XL with fit pads, standard soft-sponge fit pads

Infos: www.predatorhelmets.com

SPRAYDECKS

SPRAYSKIRTS COME IN A VARIETY OF SIZES AND ARE IMPORTANT FOR KEEPING WATER OUT OF THE COCKPIT.

NEW

LEVEL SIX - SPIN CYCLE

The Spin Cycle is a bungee randed whitewater skirt featuring Rotex neoprene side panels for added resistance against abrasion from your paddle. Based on the popular Blender, the Spin Cycle employs a super stretchy neoprene deck and a bungee rand that fits easily and comfortably on a variety of cockpit sizes. 4 mm diamond grid neoprene deck with Rotex neoprene side panels - 3 mm neoprene tunnel - Urethane glue on front and sides of underside of deck surrounding the rand for increased abrasion resistance against cockpit rim and boat outfitting components. - Seams are stitched, glued, and seam taped - Accessible nylon pull handle - Bungee Rand.

waistsize: XS, S, M, L, XL cockpitsize: One Size

Infos: www.levelsix.com

NEW

DUEMSTUFF - EXTREME SPRAYDECK

An advance in the neoprene technology has had a great impact on Extreme spraydeck design. Duemstuff is the first kayaking spraydeck manufacturer to be using the newest Tatex covered neoprene for best grip and abrasion resistance. Even though it is the priciest neoprene on the market we decided to keep prices the same and push in the new technology and level of quality in favour of paddlers. FEATURES Ultraspan SmallDiamond 4mm neoprene base Kevlar/Tatex Reinforced edge Nylon/Tatex back edge 10mm Elastic cord Ultraspan 3mm neoprene inside waist for comfort and warmth.

waistsize: S, M/L, XL - cockpitsize: all

Infos: www.duemstuff.com

NEW

NOOKIE - ABSOLUTE DECK

The design brief for Nookie was simple... To design a high performing no bull spraydeck! The natural latex coating on the underside of the neoprene deck sticks to your boat like white on rice, until the big bright grab loop is pulled for release if necessary. The 4mm Armotex neoprene is TOUGH, REALLY TOUGH. This is used over the entire deck as rocks are tough too. The 3mm superstretch neoprene waistband offers a close dry fit when used on cold days with many layers or in warmer climates with few layers. All the seams are blindstitched and glued. They are put together with the highest level of technology and provide a watertight seam.

waistsize: XS, SM, LXL - cockpitsize: Keyhole & Bigdeck

Infos: www.nookie.co.uk/absolutedeck

NEW

SEALS - RANDED SEAL

The high performance 3.5mm neoprene offers a contoured micro-ribbed rubber rand seal to cockpit. It boasts a form fitting anatomical tunnel with glued, stitched and sealed seams (Our Randed Seal is not intended for use on composite rims) (Image shown in a custom color) Stock Colors: Black, custom colors upon request

waistsize: XS-XXL - cockpitsize: 1.2-1.7

Infos: www.sealsskirts.com

LANGER - ARAMID

Industry-leading design utilizing highest quality materials. Skirt with oval, high back and ergo shaped tunnel. Pre-shaped construction for perfect fit on cockpit. Knee off belt and front loop for easy access. Triple glued and blind stitched inside and out. Hot-melt tape reinforcements on outside seams. Sticky rim coating. Cockpitsize: Keyhole, Bighole, XL

waistsize: 64, 71, 78, 85, 92 cm

Infos: www.textil-langer.de

°HF - ENERGY

The °hf Energy is a full-on whitewater spraydeck for younger paddlers. Designed to fit the cockpits of the smaller kayaks it features all the essential details a modern whitewater deck needs. Like all °hf spraydecks it is manufactured in 4mm high performance X-Tuck neoprene and reinforced with Kevlar. The pretensioned design ensures the ultimate fit and durability. The large centrally located release handle in conjunction with the knee-off strap guarantees a safe and quick exit in all situations.

waistsize: 62 cm, 70 cm - cockpitsize: Small

Infos: www.paddle-people.com

SEALS - PRO RAND

The high performance 3.5mm neoprene Pro Rand offers contoured micro-ribbed rubber rand seal to cockpit. Featuring top-edge wear guard with Aramid fibers and a form fitting anatomical tunnel. All seams are glued, stitched and sealed (Our Pro Rand is not intended for use on composite rims) Stock Colors: Black, custom colors upon request

waistsize: XS-XXL - cockpitsize: 1.2 - 1.7

Infos: www.sealsskirts.com

LEVEL SIX - PLAY

UPDATED FOR 2011. The Play is our most technically sophisticated sprayskirt and is designed for the most advanced whitewater paddler and the harshest conditions. If you're looking for a skirt for big water, advanced play or creaking, this is your best bet. The Play is built to stand up to the wear and tear of lots of days on the water, boat over boat rescues, and just about whatever else you can throw at it. The machine molded rubber rand actually breaks in to take on the shape and size of your cockpit, ensuring the best possible fit.

waistsize: XS, S, M, L, XL - cockpitsize: L, XL

MOUNTAIN SURF - DUR-O-RING SPRAYSKIRTS

Mountain Surf revolutionized Sprayskirts with The Kevlar Dur-O-Ring and everyone else is still trying to catch up. Our skirts are hand made in our factory in Beachburg, Ontario with the most durable materials available. We offer 2 fit characteristics for all of our skirts. The Bombproof fit is guaranteed to give you the driest, most secure seal available, and the EZ-ON fit provides a high performance fit, with a friendlier seal tension. We sell strictly direct to give you the personalized service and custom options like specialized Drydecks, C1 setups and body gaskets.

Infos: www.mountainsurf.com

MOUNTAIN SURF - CUSTOM BODY GASKET

If you want to paddle "Skin to win" without having to constantly empty your boat, the bodygasket is your ticket. The rubber cuff provides a very secure and dry seal while a special designed pad seals the gap along your spine. When combined with a drytop this custom barrel setup is the next driest thing to a drydeck. This custom option is available on any Mountain Surf Sprayskirt. If you paddle a kayak as a C1, or just aren't happy with the fit of your sprayskirt, check with us and we'll sort you out.

waistsize: XS-XXL - cockpitsize: 1.2-1.7

Infos: www.mountainsurf.com

PALM - EXTREM KEVLAR®

A whitewater shockcord spraydeck for use in the toughest conditions. With Kevlar® reinforcement and heavy duty shockcord. Reinforced tape protection at seams. 9.5 mm prestretched shockcord • 3 dimensional cut with two-way stretch neoprene prevents implosion • Full Kevlar® neoprene edge protection • Small Diamond neoprene deck panel for durability • Latex cockpit grip • Glued and blind stitched seams with reinforced Melco® tape and liquid S-Seal • Super Stretch neoprene waist tube with mesh neoprene band for secure fit • PU printed wear section at rear • 40 mm webbing release loop...

The Specialists in British Sea Kayak Design

Photo: Steve Rogers Photography
Bryan Smith testing the Delphin at Skooks, BC

Delphin

The most exciting thing to happen to Sea Kayaking in years!

Bursting with energy the Delphin is quick to accelerate, making it perfect for catching waves and surging through rock gardens.

A full bow and stern with high bow rocker helps you ride high and increases responsiveness in rough conditions, while the pronounced mid-section allows the Delphin to side surf and spin on its edge when chasing the thrills of the surf.
