Easy to wear front entry PFD.

Langer Drybags & Storage
Perfect solutions for kayakers daily routine.

CANOEING

Canoes involve the paddler kneeling or sitting in a raised position and using a paddle with one blade. Canoes can be paddled on flatwater or whitewater, though depending on the skill of the paddler, their use may be limited by the open nature of the craft. Due to the single-bladed paddle, canoeing can be more difficult to learn than kayaking, yet it offers a unique grace and appeal that has continued to draw people to the sport. Canoes can be used for outings ranging from a few hours to many weeks, and boat styles and designs reflect the intended use. Whitewater canoes are shorter and tend to have more rocker, while tripping canoes are longer, with less rise from end to end. Tripping canoes also have maximum space for storage, allowing the transport of food and gear for extended trips. Whitewater canoes are designed for maximum maneuverability and a higher water line to keep the boat drier while paddling through whitewater rapids. Canoes of both varieties come in solo and tandem models.

CANOEING BOATS

HIGH END: Advanced design and construction create high performance canoes easy to maneuver and perfect for whitewater paddling and for touring on lakes.

PERFORMANCE: Stable design and durable construction make these canoes perfect for touring on lakes and easy rivers.

ROBSON - BROOKS 16 HELIUM

HIGH END

Our tough, lightweight Armerlite material pared down to a minimum with extra strength supplied by a honeycomb base and ribs. The Brooks Helium is durable and stable to handle, fast to paddle and easy to portage. The wood gunwales are robust and beautiful. Everything you would expect from a performance canoe.

SPECS:

Length: 488 cm / 16' - width: 92 cm / 36" - weight: 24 kg / 54 lbs - max. cap.: 280 kg / 617 lb

www.robson.de

ESQUIF - L'EDGE

HIGH END

L'edge - the traditional canoe for high performance paddlers This whitewater canoe was collaboratively designed by Craig Smerda, Mark Scriver, Jacques Chasse and Dave Proulx to bring a new level of excitement to the river. From surfing glassy waves to absolutely styling your favorite steep creek the L'edge has something special to offer for everyone. Experience the L'edge today and you'll quickly forget what canoes used to be like.

SPECS:

Length: 280 cm - width: 40 cm - weight: 25 kg

GATZ - CANOKI-400HR

HIGH END

Small but just great! The Canoki's shape and rigid build make it handsome, light on the water, and safe to paddle. It has room for 2 adults and gear. Because of its special hull shape the Canoki paddles nice and straight and is suitable for all water including light whitewater. This Composite-Version is fitted with wood trim and there is also a Canoki in Royalex and the Canoki 400 Classic. The Canoki series is a smaller version of the very popular Gatz Athabasca and is available in a divided "Take off" version as well.

SPECS:

Length: 400cm - width: 93cm - volume: 500 l - weight: from 15kg - paddler weight range: 2 x 50-110 kg - max. cap.: 320 kg

www.gatz.com

GATZ-ROYAL - PROSPECTOR 488RX

HIGH END

A multi-purpose craft for beginners and experts alike. Following a traditional design it has a high freeboard, round bottom and good rocker, resulting in good maneuverability and maximum loading capacity. Good initial and final stability. Excellent for long tours on different waters and you can paddle it with 2 adults and 2 kids. Available in various Royalex and Composite constructions at Gatz Kanus, the leading manufacturer for high quality canoes in Europe.

SPECS:

Length: 488 cm - width: 89cm - volume: 550 l - weight: 22kg - paddler weight range: from 20-110 kg - max. cap.: 420kg

www.gatz.com

ROBSON - HOMES

HIGH END

No one shaped an open canoe better than Frankie Hubbard - ever. Here is his last. The Homes has a super stiff Armerlite hull, moderate rocker, it accelerates and manoeuvres quickly, is dry running, reacts on the slightest impulse and stands for big time fun. Whether you go steep creekin', take a walk on the wild side or surf your home wave. Comes with: 2 air bags, vinyl gunwales, adjustable foot rests, foam saddle and knee cups.

SPECS:

Length: 305 cm/10' - width: 70 cm/ 28" - volume: 390 l / 103 gal - weight: 20 kg / 44lbs - max. cap.: 120 kg / 250 lbs

ZEROATTIVO - NATURA

PERFORMANCE

Live your free time deep in nature. The Natura is a classical, must have canoe shape for flawless performance in all situations, sea, lake or quiet river. Stability and versatility make this canoe perfect for a wide range of users. The Natura canoe is made of triple layers of super linear polyethylene. The inner layer provides rigidity to the hull and makes it unsinkable, while the external layers protect the foam from impacts. Available in 3 versions: "Weekend" with wooden seats, "Yoke" with 2 wooden seats, and "Explorer" with 2 polyethylene seats with storage.

SPECS:

Length: 525 cm / 17'22" - width: 93,5 cm/ 3"

GATZ - CHEROKEE 550

PERFORMANCE

The extra long Cherokee follows a remarkable concept. Despite its size, it is easy to handle and absolutely safe. The Cherokee 550 is an exceptional tripping canoe and will perform best on all rivers and lakes. If you are looking for a canoe that can handle almost any load, here is what you need. The Cherokee is available for rentals and outfits in the extremely durable Cherokee527PE version that holds 4 adults and is approved for rentals according to German regulations.

SPECS:

Length: 550cm - width: 95cm - volume: 650 l - weight: 29kg - paddler weight range: 4x from 0 -110kg - max. cap.: 500kg

NEW FOR 2012

NEW FOR 2012

NEW FOR 2012

NOVA CRAFT - SUPER NOVA

PERFORMANCE

The Supernova was designed as the ideal solution for the paddler who loves to do solo wilderness river trips. Its hull characteristics do what you'd expect from a whitewater boat – like keeping you dry and effortlessly surfing a wave. Where you really appreciate the canoe is the flatwater sections in between the rapids. The Supernova will be most appreciated by experienced paddlers who enjoy messing around in whitewater. Even though it comes to life in the rough stuff, it retains enough of a quiet nature that it won't feel out of place for a casual paddle on the local pond. In the hands of a competent paddler the Supernova is an excellent dance partner.

SPECS:

Length: 428cm - width: 58cm - max. cap.: 385kg

www.canadian-trading.de

VENTURE - PROSPECTOR 15

PERFORMANCE

The Prospector is probably the most famous of all canoe designs and has never been bettered for all-round performance. We are proud to have this as the basis for one of our most successful canoes. Combining this classic shape, performance with our new CoreLite material, the result is a hard-wearing craft that is ideal for centres and enthusiasts who have paddling whitewater high on their priority list.

SPECS:

Length: 464 cm - width: 91 cm - weight: 31 kg - max. cap.: 370 kg

www.venturecanoes.com

OLD TOWN - SARANAC 160 XT

ENTRY LEVEL

By narrowing the shape and slightly lowering the seats we have developed a series that paddles better than most recreational canoes on the market. The Saranac series features two contoured seats plus a bench seat perfect for smaller passengers. The bench seat also includes a covered storage compartment. There are a variety of extras including cup holders, rod holders and storage trays designed to add convenience and versatility. The Saranac is affordable family fun!

SPECS:

Length: 490 cm - width: 94 cm - weight: 40.4 kg - max. cap.: 380 kg

www.oldtowncanoe.com

RIBER - RIBER 16

ENTRY LEVEL

16ft Open Canoe made from a triple layer Polyethylene material to increase buoyancy and durability.

SPECS:

Length: 486 cm - width: 92 cm - weight: 46 kg - max. cap.: 450kg

www.riberproducts.com

WELHONPESA - WINKKARI 175

ENTRY LEVEL

The Winkkari 175 provides good cruising speed while being very stable and roomy. It is a reliable choice for rental places and extended canoe trips. It has webbed wooden seats and a durable one layer PE hull - skidplates not needed. Capacity 400kg. Winkkari is available in 2, 3 or 4-seat models. Optional middle seat available for 2-seater with detachable hanging mount.

SPECS:

Length: 530 cm - width: 90 cm - weight: 40kg

www.welhonpesa.fi

EXO - AUGH 460

ENTRY LEVEL

An offshoot of the traditional Canadian canoes in wood and fabric, this canoe is popular for its ease in handling and stability. Constructed with a polyethylene sandwich that increases its sturdiness, it is ideal for rivers and quiet waters. Equipped with seats to accommodate three adults.

SPECS:

Length: 460 cm - width: 93 cm - weight: 35 kg - paddler weight range: 50-100 kg - max. cap.: 300 kg

FLUID - LARGE AMIGO

ENTRY LEVEL

The Amigo takes canoeing to a new level of comfort and ease of use, while the rotomoulded polyethylene construction make it nearly indestructible. It offers the safety and simplicity of a sit-on-top but with the dryness of an open canoe. Best of all, it is affordable! The Amigo hull has a traditional canoe pedigree. It is very stable, has a high load capacity and is quite fast for its length. It tracks well but can be maneuvered easily when needed. The moulded-in seats are super comfortable and adds buoyancy to the boat too, making the boat extremely safe in the case of a capsize. The middle seat is wide enough to accommodate two smaller paddlers sitting next to each other.

SPECS:

Length: 450 cm / 14'7" - width: 100 cm / 39.3"

www.fluidkayaks.com
