

SEALLINE®

Never Be Limited by Your Gear

ACCESSORIES

Safety gear has been the focus of much R&D in the paddlesports industry. Designers and manufacturers are always looking for ways to make paddling as safe as possible, while realizing some risk is inherent.

An enormous variety of accessories have been designed around the various disciplines of paddling and there is likely an accessory out there to suit the need of just about any paddler, in any boat, on any piece of water.

ORTLIEB - DRY BAGS

Dry bags with roll closure for several uses; optional valve for deflating and compressing packing volume; abrasion and fold resistant fabrics; D-rings and bottom loop for fixing, hauling, locking and transport.

Sizes: 5L - 109L

www.ortlieb.com

NEW FOR 2012

OVERBOARD - DRY FLAT BAGS

For a lightweight waterproof bag, try an OverBoard Dry Flat Bag. Where space and weight are a factor, an OverBoard dry flat bag provides the perfect waterproof solution. Made of super-lightweight but durable material, our dry flat bags fold to almost nothing when not in use and keep

Sizes: 33 x 35 x 11,5 cm - 13 x 14 x 4,5 inch

www.k-gear.com

NEW FOR 2012

OVERBOARD - IPAD CASE

Our waterproof iPad cases let you relax safe in the knowledge that your precious iPad is safely sealed inside a waterproof case. And whatever adventure you decide to take it on, it'll be protected from sand and dirt too, phew. Because all our waterproof iPad cases come complete with a padded back, a back hand loop and a clear front, you can use your iPad while it is safely sealed within the waterproof case. Take it away!

Sizes: 5L, 15L, 30L

www.over-board.co.uk

NEW FOR 2012

OVERBOARD - KAYAK DECK BAG

Our waterproof kayak bag is constructed from sturdy & easy to wipe clean PVC tarpaulin and seals tight with our easy to use Fold Seal System™. Add to that welded seams and you've got a waterproof kayak bag that can handle any rapid! And if you do drop it in the water, this highly visible Yellow kayak bag will neatly float to the top so you can get it back easily.

www.over-board.co.uk

NEW FOR 2012

SEA TO SUMMIT - GEAR TRIP

A travel cover has many uses: helps save fuel, keeps water out and keeps your gear in your kayak. The Gear Trip does all these functions as well as being a removable gear bag. Now there is no need to shuffle through your kayak to find your gear, as it is all contained in the mesh bag hanging under the cockpit cover. Large curved zip for easy access to gear. Grippy edge to hold onto the cockpit. 8mm adjustable shockcord. Front grab loop or bag handle. Mesh side to help your wet gear breath.

NEW FOR 2012

SEALLINE - KODIAK WINDOW DRY SACK

Kodiak Window Dry Bags feature a clear urethane window, making it easy to locate the gear inside. A unique, one-way, low-profile purge valve offers fast and easy compression in kayak hatches and other tight spots. A tough, lightweight nylon with a heavy-duty round bottom stands up to heavy use and a waterproof SealLine Dry Seal closure ensures the best protection. Available in seven sizes and two new colors for 2012.

Sizes: 5L, 10L, 15L, 20L, 25L, 30L, 40L

www.seallinegear.com

NEW FOR 2012

SEALLINE - NIMBUS SACK

Engineered with superior durability, Nimbus Sack dry sacks offer the perfect combination of light weight and unquestionable reliability. Coated inside and out with a tough urethane, these sacks hit the sweet spot for everything from everyday abuse, to remote expeditions where weight and bulk must be kept at a minimum, and wet gear is definitely not on the itinerary.

Sizes: 5L, 10L, 20L, 30L, 40L

www.seallinegear.com

SEALLINE - E-CASES™

SeaLine® E-Cases™ provide the assurance of reliable, all-weather protection for a wide range of valuable electronic gear, from iPhones® and GPS units to e-readers and iPads®. A waterproof SealLine SealLock™ Zipper closure provides fast, easy, access, while the clear, supple window allows full use of electronics—even talking—while in the case. Every case is individually tested to withstand one meter of submersion for thirty minutes before it leaves the factory.

www.seallinegear.com

SEALLINE - CIRRUS SACK

Description: Our lightest waterproof protection, Cirrus Sack dry sacks are perfect for minimalists seeking essential protection with the least possible weight. They're built with an ultralight, silicone-impregnated nylon, fully taped seams and a water-shielding roll-down closure for maximum protection. Large sizes make great pack liners for rainy backpacks, and smaller ones create welcome havens of organization and protection on any journey.

Sizes: 2.5L, 5L, 10L, 20L, 30L

www.seallinegear.com

SWEET - DIRTY FRANK GEAR BAG

The Dirty Frank Gear Bag is the perfect companion on every whitewater trip. Big compartment for wet gear with a long zip on the side. Front zip pocket, and integrated tarp to keep your feet clean when changing. Several lift and tie down loops, as well as backpack straps for easy carrying.

Size: 80 l / 21.14 US gal

Sizes: 60L, 85L, 110L

www.ortlieb.com

S3 - T5000

The T5000 is by far our most popular and most versatile case. It is incredibly rugged and has the capacity for a number of items. The case comes standard with a purge knob and pick and pluck foam so individual customization is simplified. The pressure relief valve allows for equalization of the inside pressure during elevation changes.

Outside dimensions: 260 x 218 x 122 mm

<http://s3cases.com>

S3 - T2500

This particular case offers a true versatility. The T2500 functions well for water enthusiasts to house not only hand held electronics, but a wallet as well. This durable case is currently being used as the housing for a bilge pump in kayaks.

Outside dimensions: 164 x 105 x 83 mm - weight: 300g

<http://s3cases.com>

SEALLINE - BLACK CANYON DRY BAG

When we found out that we could make our most popular dry bag tougher and lighter while reducing its environmental footprint, we knew exactly what to do. Built with PVC-free, 300D nylon with double urethane coating, the new Black Canyon Dry Bag adds all of these benefits to the straightforward protection of the classic Baja™ Bag, making it the finest one we build.

Sizes: 5L, 10L, 20L, 30L, 40L, 55L

www.seallinegear.com

SEALLINE - ECOSEE BAG

Withstands quick submersions and will float if dropped in the water. Earth-friendlier PVC-free materials The EcoSee™ Bag delivers a host of performance benefits, making it our premium transparent dry bag in every respect. Extra tough urethane outshines traditional vinyl with superior abrasion resistance, lighter weight, better cold-weather performance and an improved seal.

Sizes: 5L, 10L, 20L, 30L

www.seallinegear.com

SEALLINE - KODIAK DECK BAG

Using a totally clear urethane window, the PVC-free Kodiak Deck Bag provides waterproof protection and easy access to your gear. Now even more abrasion resistant, it boasts rugged, RF-welded construction and an easy-to-use roll-down closure. Bungee cords and D-rings make attaching it to your kayak a snap, while the D-rings also allow you to attach map cases, electronic cases, and other essentials.

www.seallinegear.com

SEALLINE - KODIAK™ TAPER DRY SACK

Made with tough, low-friction nylon, the Kodiak Taper Dry Sacks are shaped specifically to fit kayak bow and stern compartments for the most efficient use of space. RF-welded seams and a roll-down closure ensure waterproof protection, and easy packing. A unique, one-way, low-profile purge valve offers fast and easy compression. The purge valve ensures a no-hassle, burp-free seal.

Sizes: 20L, 35L Long, 35L Wide

HANDIWORLD - HANDIRACK

The HandiRack is the ultimate in convenience roof racks and provides a simple yet effective means to transport kayaks and canoes. It can be fitted to most 4-door and 2-door cars (with the exception of convertibles!) and has a load capacity in excess of 50Kg. The HandiRack is manufactured from extremely strong and durable 400D nylon and being inflatable means that when it's not in use, it has a small storage footprint.

www.handiworld.com

HANDIWORLD - HANDIKART

Stylish, versatile, and easy to use the HandiKart sets new standards for the transportation of kayaks and canoes. The rugged HandiKart makes the transfer of equipment from the car to the water's edge undemanding and effortless. Furthermore, the HandiKart folds up into a compact shape that is easily stowed in the kayak or canoe and can be quickly dismantled for when space is really at a premium.

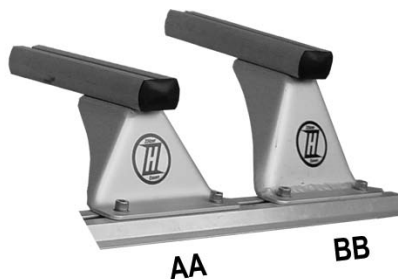

www.handiworld.com

KARITEK - EASY LOAD ROOF RACK

The innovative Karitek Easy Load Roof Rack (ELRR) carries sea kayaks, river boats, sit on top kayaks and open canoes. It suits cars, people carriers, 4x4s and vans and fits on to vehicles' existing roof bars. It lowers to the side for safe, easy and secure loading of kayaks and canoes. The High Lift version with built-in winch and our new Roof Rail System brings the benefits of the Easy Load Roof Rack to high top vans too.

www.karitek.co.uk

ZÖLZER - HEAVY DUTY ROOFRACK SYSTEM

Our heavy duty roofracksystem is a real Zölzer genuine part. The reputation of our system is outstanding. The feet shown, are for VW T5 or Mercedes Vinos with rail systems. At a bar width of 150cm the AA or BB System carries 200 Kg top load with only two bars!

www.zoelzer.de

MALONE AUTO RACKS - BIG FOOT PRO CANOE CARRIER

The Malone Big Foot Pro™ universal car rack canoe carrier is our latest design in affordable canoe transport. It easily installs on virtually any vehicle or trailer cross rail system and will transport one canoe. This is a very affordable way to get your canoe to the water.

www.sealectdesigns.com

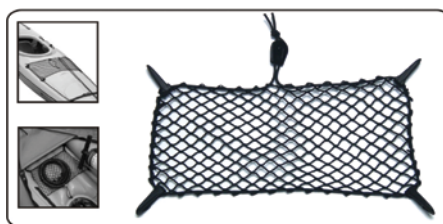

NEW FOR 2012

TRAK - SEA SOCK

Trak's sea sock is a great addition to the T-1600 performance folding kayak for additional safety, especially in bigger water paddling or solo paddling. The paddler will sit inside the sea sock in the kayak, so no water will get inside the boat if capsized. Also, it's a great way to keep the inside of your T-1600 clean and adds insulation for cold water paddling. Made with a lightweight and tough Aquatherm material by Reed. Fits paddlers up to 195 cms.

Cockpit sizes: 42 x 81 cm

www.rethinkkayak.com

K-GEAR – ELASTIC NETTING

Elastic net was designed to keep virtually anything and stowed tightly against the board. Elastic netting stretches to hold many items of different sizes at the same time. Empty net is stretched and doesn't obstruct.

Sizes: S - XL

www.k-gear.com

KAJAK-SPORT OY - HATCH COVERS AND RIMS

Kajak-Sport is one of the most popular manufacturers of watertight kayak hatch covers in the world. Altogether they offer four different hatch series and six different sizes, which provide plenty of options to find the best hatch cover solution for everyone. The different versions available are Original rubber cover, Click-on cover, LRC-e and LRC HT. Kajak-Sport hatch covers are fully UV-protected and extremely durable.

www.kajaksport.com

KAJAK-SPORT OY - SPLITLOCK

The first universal paddle joint part that can easily be retrofitted to most kayak paddles. The splitlock is fully adjustable having good length and feather adjustment properties. It can be installed quickly using Kajak-Sport's innovative mechanical connector without the application of any glue. Therefore the parts can easily be taken apart and reconnected again if needed.

For shaft dimensions Ø 28 – 30,5 mm

www.kajaksport.com

KAJAK-SPORT OY - NAVIGATOR RUDDER & FLEX-JOINT STEERING SYSTEM

The steering system is based on the KS-Footrests but comes with larger self-pivoted two compound steering pedals. The steering pedal is connected to the footrest with special flex-joint polymeter pivot construction, which allows for comfort & precise steering quality. The flex-joint system is totally rust- and carefree in all conditions and there is no jamming possibility thanks to the innovative construction.

www.kajaksport.com

KAJAK-SPORT OY - RETRACTABLE PLASTIC SKEG SYSTEM PRO

A powerful and reliable retractable skeg system for composite, thermoformed and polyethylene kayaks. This injection-moulded skeg box is made to stay clean from dirt and other obstacles to reduce the risk of jamming. The skeg blade is well supported to the skeg box with integrated framework. The box is simple to install either from in- or outside and can also be retrofitted.

www.kajaksport.com

KAJAK-SPORT OY - SELF RESCUE CLAMPS

The clamps are made to hold the paddle on the rear deck of a kayak when the capsized kayaker is doing a paddle float rescue. Fully automatic locking feature and single hand opening mechanism is secure and extremely simple to use even with cold hands or gloves on. With the KS-Self Rescue Clamps, the common paddle float rescuing technique becomes a lot more reliable and quicker which increases safety in all weather conditions.

www.kajaksport.com

KAJAK-SPORT OY - HANDPUMP

Good quality, reliable hand pump for kayakers requiring light pumping function. The KS Handpump features an integrated attachment bungee, low profile flotation foam, removable caps for cleaning, and an ergonomic two compound handle with finger protection. It's made with a durable, high quality Aisi 316 steel shaft.

www.kajaksport.com

KARITEK - SKEG RUDDER SYSTEM

Karitek's revolutionary Skeg Systems set new standards for kayak control and reliability. As well as robust, economic wire and rope skegs, the system features the Hydro-Skeg® and Skeg Rudder System (SRS). A completely re-engineered kayak skeg design, the system uses modern manufacturing techniques and simple hydraulics to give unheard of levels of precision control and performance, there are no more wires to kink or ropes to fray.

www.karitek.co.uk

KARITEK - KAYAK SAILS

These innovative, shaped and battened sails are specially designed by professional sailmakers for sea kayak use. The result is a lightweight, responsive sail that's robust, simple to deploy or store and doesn't get in the way of paddling. Karitek, who are working with Flat Earth Kayak Sails to further refine the mast and rigging for the European market, supply a sail set with shaped and battened sail, 2 piece marine grade aluminium mast, deck kit with fixings and fitting instructions.

www.karitek.co.uk

RIVERBUG.ME - HOT BUTTERED OCTOBLADE FINS

Riverbug fins need to be short, flexible, lightweight, comfortable and durable. The Hot Buttered Octoblade Fins tick all the boxes. The Octoblades are a no-nonsense rubber fin that has just the right balance of power to ensure you can accelerate quickly when needed, but are also able to paddle all day without your legs cramping up.

Sizes: S - XXL

www.riverbug.me

SCOTTY - GEAR HEAD MOUNT

The Scotty Gear Head Mount features a quick and easy, drop and lock system. It allows you to secure or re-position your rod holder with just a twist. This versatile mount allows locking 360 degree horizontal rotation as well as vertical articulation.

www.scottypaddlesports.com

SCOTTY - CAMERA / COMPASS MOUNT

The Scotty Portable Camera Mount is fully twistable, turnable, rotatable and best of all, instantly portable. Locks down a standard camera or GoPro without needing a special adaptor. Fits into ALL Scotty post mount systems, which means we have you covered no matter what you want to mount it to. The versatile top plate also works great for mounting a compass or any other device that mounts on a flat surface.

www.scottypaddlesports.com

SCOTTY - ROCKET LAUNCHER RODHOLDER

Fully adjustable rod holder with over 9" of composite construction, accommodating all rods. To use the new Scotty «lock-down» mount system simply choose the best direction to fish from and insert the rod holder or accessory, pushing the post straight down in the mount. It tilts up and down, including upright for rod storage when traveling. Less missed strike opportunities, as it swivels 360 degrees.

www.scottypaddlesports.com

SEA TO SUMMIT - AQUASLING

The Aquasling is a simple and economical solution designed to store anything from your surf boards to your sea kayaks. The great space saving design keeps your gear stored in the most low-profile position while still protecting it better than any other strap system available. Simple design allows a single person to easily access and store their craft. Extremely versatile - accommodates a wide range of craft up to 90cm / 35" wide.

www.seatosummit.com.au

SEA-LECT DESIGNS - BASIC HARDWARE & REPAIR PANEL

Don't have a lot of room but still want to feature a selection of hardware and repair accessories? Install our 1-panel display with the most common items every paddler needs. Includes 20 SKU's featuring drain plugs, cleats, guides, handles, pad eye and fastener packs.

<http://sealectdesigns.com>

SEA-LECT DESIGNS - ESSENTIAL HARDWARE & REPAIR PANEL

Featuring the hardware «essentials» for every paddlesports shop, arrange our 2-panel display vertically or side-by-side to maximize profit potential. All our panels mount easily on open wall space (or clip into gridwall/slatwall with included hooks) and come complete with merchandising materials! Includes 36 SKU's featuring cleats, guides, pad eyes, hooks, drain plugs, pad eye, snaps, handles, and fastener packs.

www.sealectdesigns.com

WINDPADDLE - SCOUT

The WindPaddle Scout sail is our «entry-level» sail intended for the recreational solo kayak paddler. The Scout is the same size sail as our popular Adventure sail, offering a sail intended for 4-15 knot wind conditions. Built with the casual or recreational paddler in mind, the «Scout» is the lightest, most affordable and easiest to use sail currently on the market. We built this sail with a soft batten that holds sail shape, yet is pliable enough that it almost coils/folds itself!

<http://windpaddle.com>

WINDPADDLE - ADVENTURE

This is the sail for expeditions on big water; it will be pulling hard long after you are ready to head to shore. The «Adventure» will withstand any condition you throw at it. The sturdy and unbreakable perimeter batten maintains sail shape in high winds and allows for high sailing angles. All WindPaddle sails launch and fly from the on-deck position. It can be set up for instant self-launching either before sailing or while out on the water so there's no need to return to shore to launch your sail!

<http://windpaddle.com/>

WINDPADDLE - CRUISER

We have designed the WindPaddle «Cruiser» sail for canoes, tandems, inflatables and fishing kayaks. We've kept all of the lightweight easy-of-use features of our other sails but with 50% more power for the heavier boats. The «Cruiser» sail connects to existing boat hardware (perimeter line, bungy cords, eye-straps, etc.) so there is no need for deck mounting hardware or complicated installation.

Sizes: 1,6 m²

<http://windpaddle.com>

KEELEAZY - PROTECTIVE STRIP

Keeleazy™ Protective strip is a self-adhesive (peel and stick) strip that provides an extremely durable surface anywhere that abrasion is a concern. It is easily applied to fiberglass, Polyethylene, thermoformed ABS and metal surfaces and can be moulded over compound curves with the use of a heat gun.

Sizes: 5cm, 7.5cm, 10cm of width
